SUMMARY

Frontend Developer with experience building responsive web applications using React, Next.js. Developed and deployed full-stack projects with REST APIs and cloud infrastructure. Seeking an entry-level software development role where I can contribute and grow.

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Python

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js

Database: PostgreSQL, Firebase

Tools: Git, AWS

PROFESSIONAL EXPERIENCE

Outlier AI

May 2025 – Present

AI Trainer (Freelance)

Remote

- Evaluate and refine AI-generated responses to improve accuracy, relevance, and safety.
- Design and test prompts to guide model outputs across various tasks.
- Analyze structured outputs to identify errors and edge cases in model behavior.
- Provide detailed feedback to improve model performance and consistency.

Defence Space Administration

February 2023 – December 2023

Frontend Developer

Abuja, Nigeria

- Developed a secure messaging frontend using React, improving internal communication efficiency.
- Integrated backend APIs to enable real-time messaging and document sharing.
- Participated in debugging and resolving frontend issues to improve application stability.

PROJECTS

Project Forum – Next.js, Node.js, PostgreSQL

Ongoing

<https://github.com/Femosky/project-forum>

- Developing a full-stack social platform using Next.js to improve performance and SEO.
- Developed REST APIs with Node.js and Express for handling posts, comments, and user interactions.
- Designed relational database schemas using PostgreSQL and Prisma ORM.

Map-based Secret Sharing App – React, Node.js, PostgreSQL, AWS

May 2025

<https://github.com/Femosky/MapOfSecrets>

- Built a full-stack web app enabling users to post and explore location-based content.
- Integrated Google Maps API for dynamic data visualization and filtering.
- Deployed backend on AWS and implemented scalable PostgreSQL database architecture.

Clinic Appointment Booking System – React, Firebase

January 2025

<https://github.com/Femosky/clinic-booking-system>

- Developed a web application for managing appointments and user authentication.
- Implemented real-time database and automated notifications.
- Improved scheduling efficiency and user experience.

EDUCATION

Master of Science in Computer Science

Starting Fall 2026

Georgia Institute of Technology

Atlanta, Georgia

Mobile Solutions Development (Diploma)

April 2025

Conestoga College

Waterloo, Ontario

Bachelor of Engineering in Computer Engineering

September 2021

Covenant University

Ogun, Nigeria
